Dear Susan,

We are writing on behalf of Christine McEvilly, the Digital Archivist and Project Coordinator at the American Jewish Historical Society. We are graduate students in the Information and Library Science program at Pratt Institute, currently enrolled in a Projects in Digital Archives class and we are working with AJHS on their [Jews In America: Portal to American Jewish History](#) project.

We are reaching out to you as the Rauh Jewish Archive had previously expressed interest in participating in the portal project. In order to help facilitate the process, could you please remind us how your records are stored?

Our end goal is to get the records into MS Excel files and we can help you with that if your records are in another format like XML. Records should have at least the following Dublin Core metadata:

- Title (even if it is "untitled")
- Date
- Creator
- Repository
- A local identifier code (local call number, system number, permanent ID, etc.)
- Subjects
- Description
- URL (optional)
- Access Image (preferable, but optional)

Once we get your information into the system we will include a description about Rauh Jewish Archives on our [Portal Partners](#) page and feature your logo on the homepage.

As our class only runs through mid-December, it would be great if we could receive your records no later than the first week of November.

Please let us know if you have any questions about the project. You can contact us by e-mail or through our instructor, Anthony Cocciolo, by phone at (212) 647-7702.

We look forward to working with you.

Thank you,

Hello Susan,

Great to hear you're still interested in participating! To get the ball rolling in our court, please let us know what format your records are in. We would be happy to help with any process and answer any questions. Again, it would be great if we could receive the files from you in some form by the first week of November so that we can get them onto the Portal by the end of the semester. We appreciate your reply and are excited to get started on this project!

Best,
Nora, Genna, and Tali

I can send MARCXML files for our Rauh Jewish Archives

Subject: RE: Jews in America Portal Project

Dear Susan,

We apologize for the late response! Here is the update about the portal project:

Our group finished processing the data we received from Matthew and met with Christine from AJHS last week.

She performed a test import of your records, which went well. The entirety of the Rauh records will be turned over to Christine this week.

Their aim is to get the data live in January, 2014, but before that, you will have a chance to review your records on the development site.

One other thing we ask is if you could send us a logo to associate with the collection, as well as a one-to-two-paragraph statement on the partners about page.

Thank you again and please let us know with any further questions. We will email you once more next week with our final update.

All best,
Genna, Tali, and Nora
